

## Voodoo® Aluminum Roller Rocker Arms

The newest addition to the always expanding Lunati® line of performance oriented valvetrain products are Voodoo® Roller Rocker Arms. These aluminum roller rocker arms are the product of extensive testing, including special deflection and bend tests along with high RPM simulations. Voodoo® Roller Rockers feature unmatched attention to detail such as high-quality aircraft grade aluminum bodies, extra-large trunnions and bearings which allow these rockers to outperform competitors in both power increases and durability. Proven to endure more than 100,000 miles of elevated engine speeds, Voodoo® Roller Rockers are perfect for any enthusiast looking for a replacement rocker arm that will far exceed the quality of their O.E.M. units as well as competitors' versions.

### KEY FEATURES AND BENEFITS

- Largest bearing in the industry provides the highest durability and load capacity available
- Largest trunnion in the industry for superior high RPM stability
- Clipped in trunnion for positive side to side location
- Precisely ground trunnion to bearing mating surface for extended life and reduced friction
- Lunati® specific design is clearanced for 1.550" diameter valve springs or 1.650" (most models) to accommodate large aftermarket valve springs
- Optimized rocker arm geometry evenly distributes load for maximum strength
- Anodized black with laser etched Voodoo® logo
